TOTAL, 413.

# ANNOUNCEMENT FOR 1878.

---

## THE COLLEGIATE YEAR.

The Collegiate Year embraces a special *Spring* and a regular *Winter Session*. Attendance during the former is optional, during the latter obligatory, as a prerequisite for graduation. The Spring Session for 1878 begins Monday, March 11, and ends Saturday, June 1. The Regular Winter Session for 1878-79 begins Tuesday, October 1, and lasts till the following March. Students can matriculate for the year at the beginning of either Session.

*After Commencement, 1878, no tickets to any lectures of a current Winter Session will be issued to students who do not apply for them before December 1.*

## GRADUATION.

I.—Candidates for the Degree of Doctor in Medicine must have attended two full courses of didactic lectures on—1. Anatomy; 2. Physiology; 3. Chemistry; 4. Materia Medica and Therapeutics; 5. Obstetrics; 6. Surgery; 7. Pathology and Practical Medicine.

The second of these two courses must have been given at this College during a Winter Session or Sessions.

It is optional with a student who desires to graduate at this College, whether he shall complete his attendance upon the required two full courses of lectures in two regular Sessions, or shall complete such attendance in three or more regular Sessions, by attending during certain Sessions only the lectures upon certain branches.

*Preceptors are earnestly recommended to advise such of their students as can afford the time, to pursue the latter course.*

II.—Candidates must have pursued the study of Practical Anatomy during one Winter Session of this College, or one regular Session of some other regular school.

III.—Candidates must have studied medicine three years, under the direction of a regular physician or surgeon, have attained the age of twenty-one years, and be of good moral character. Full certificates attesting these facts must be furnished. *The phrase "regular physician or surgeon" is used in the sense commonly understood in the medical profession. Certificates of preceptorship from Eclectic, Homœopathic, or other so-called "irregular" practitioners, will not be received, even if such practitioners be graduates of regular medical schools.*

IV.—Each candidate is required to deposit with the Secretary of the Faculty a thesis on some medical subject, written by himself, and to pass a satisfactory examination before the College Faculty on the seven branches of medical science taught in the lectures of the Winter Session.

Examinations for the Degree of Doctor in Medicine will take place in the College Building as follows, in 1878:

1. On Monday, February 18, from two to four and from seven to ten o'clock P.M., and each day thereafter between the same hours, up to Saturday, February 23, at four o'clock P.M.

2. On Tuesday, September 10, from two to four P.M.

The College Commencement for the conferring of Degrees will be held, in 1878, at Steinway Hall, New York, on Friday, March 1, at eight o'clock P.M.

The diploma of this College is recognized in Great Britain and Ireland as evidence of three years' medical study, by all bodies which confer the Degrees of Bachelor in Medicine (M.B.), Master in Surgery (C.M.), and Doctor in Medicine (M.D.).

Graduates of this College who are Masters in Arts of certain American Academic Colleges, among which are Harvard, Yale, Princeton, Columbia, and Amherst, are not required to pass examinations in Arts and Science before proceeding to the degrees of M.B., C.M., and M.D., in the United Kingdom.

Graduates of this College may become Licentiates of the Royal College of Physicians of London, Edinburgh, or Dublin, by passing a satisfactory examination, without previous residence in the United Kingdom.

Graduates of this College may become Licentiates of the Royal College of Surgeons of London, Edinburgh, or Dublin, by becoming Licentiates of one of the Royal Colleges of Physicians above mentioned, and passing a satisfactory examination, without previous residence.

The above conditions under which graduates of this College are admitted to Degrees and Licences in Great Britain and Ireland apply equally to its graduates and to those of all other recognized medical colleges in the United States.

## EXPENSES.

### All Fees are payable in Advance.

The necessary expenses for graduation at this College, for a student who attends two Winter Sessions, having taken no previous course at another regular medical school, are as follows:

#### FIRST WINTER SESSION.

Matriculation (good for a Spring and Winter Session).....	\$5
Tickets for the full course of lectures.....	140
Practical Anatomy ticket.....	10
Anatomical material (at \$1 each "part"), not over.....	5
Total.....	<u>\$160</u>

#### SECOND WINTER SESSION.

Matriculation (good as above).....	\$5
Tickets for the full course of lectures.....	140
Graduation fee.....	30
Total.....	<u>\$175</u>
Total for the two Sessions.....	<u>\$335</u>

A matriculation fee of \$5 must be paid once in each Academic Year by every one who pursues any study at this College, as a necessary preliminary to such study.

Only graduates of this College, and candidates for graduation thereat who have passed their examinations, are exempt from the action of this rule.

The fees for attendance upon the lectures on one or more of the seven branches of study taught during the Winter Session, are at the rate of \$20 for each branch.

A graduation fee of \$30 must be paid by every one who receives the Degree of Doctor in Medicine, before obtaining his diploma.

The fees for Practical Anatomy are given above.

Students who have already attended two full courses of lectures in other regular schools, and graduates of other regular schools who will be of less than three years' standing at the end of a given Winter Session, are admitted to the full course of lectures of such session (not including Practical Anatomy), on paying the matriculation fee and \$70.

For attendance upon lectures on a less number of branches of study than the seven branches which make up a full course, such students and graduates will be granted no reductions in fees.

Students who have attended two full Winter Courses of Lectures in this College, or who, having attended one full course of lectures in some regular medical school, have *subsequently* attended one full Winter Course of Lectures in this College, are admitted to a third course (not including Practical Anatomy), on paying the matriculation fee only.

N.B.—*Excepting the Annual Matriculation fee of \$5, the sum to be paid in necessary fees during a student's curriculum at this College is the same, whether that curriculum be gone through in two Sessions, or divided between three or more Sessions.*

GRADUATES of this College, and candidates for graduation who have passed their examinations, are admitted without fee to all the didactic and clinical lectures of the Academic Year.

GRADUATES of other regular schools, who will be of three years' standing at the end of a given Spring or Winter Session, are admitted to all the didactic and clinical lectures of such Session on paying the matriculation fee. THEOLOGICAL STUDENTS intending to appear for graduation in Medicine are required to pay the same fees as other students.

*Absolutely no reductions or remissions of established fees are granted for any cause whatever.*

Fees for optional special courses will be found under the heads of such courses.

The cost of recommended text-books, and of dissecting instruments, will be found on page 18.

## TUITION.

Tuition at this College is by Didactic Lectures with Demonstrations, Clinical Teaching, Recitations, and Personal Instruction in subjects involving physical manipulation.

### I.—LECTURES.

In the *Winter Session*, from five to six didactic lectures with demonstrations, are given daily by the Faculty of the College, on the general topics of: 1. *Anatomy*; 2. *Physiology and Hygiene*; 3. *Chemistry and Medical Jurisprudence*; 4. *Materia Medica and Therapeutics*; 5. *Obstetrics and Diseases of Women and Children*; 6. *Surgery*; 7. *Pathology and Practical Medicine*. Attendance at the lectures is a

prerequisite for graduation. In addition, two series of lectures upon special subjects are given, on which attendance is optional. In the Session of 1877-78 these lectures are as follows: Four lectures on Diabetes, by Professor W. H. Draper; seven lectures on Localization in Cerebro-Spinal Diseases, by Prof. E. C. Seguin.

In the *Spring Session* two didactic lectures are given daily by the Faculty of the Spring Session. The topics will be found on page 2. These lectures present the subjects treated of in greater detail than is possible in the Winter lectures. *Fees* for the Spring Session: Full course, \$30. Single branch, \$5. Attendance optional, but, if upon a full course, counts as time spent in study under a preceptor. Besides the lectures by the Faculty of the Spring Session, one didactic lecture a week on Insanity is given by Prof. E. C. Seguin, to which admission is free to all matriculated students.

## II.—CLINICAL TEACHING.

Clinical teaching forms one of the most important elements of medical tuition. By the showing of actual cases the teacher demonstrates upon the person of the patient the didactic instructions of the lecture-room, and the student thus gains a practical knowledge of pathology, symptomatology, and the art of making diagnoses, sees operations performed, and observes from clinic to clinic the effects of treatment. For this branch of instruction the facilities offered by this College are unsurpassed, and are as follows:

### College Clinics.

*Ten Clinics* are held weekly, during the entire year, in the College building. Most of these clinics have been long established, are extensively resorted to by the sick poor, and constitute one of the most prominent out-patient services in the city. During the past year 6,284 cases were registered. The clinics cover all departments of medicine and surgery, and are as follows:

*Surgical*.—Prof. MARKOE, Mondays, 12 M.

*Diseases of the Skin*.—Prof. DRAPER, Mondays, 3 P.M.

*Diseases of the Throat* (with laryngoscopic demonstrations).—Prof. LEFFERTS, Tuesdays, 2 P.M.

*Diseases of the Eye and Ear*.—Prof. AGNEW, Tuesdays, 3 P.M.

*Diseases of Children*.—Prof. JACOBI, Wednesdays, 1.30 P.M.

*Surgical*.—Prof. DETMOLD, Wednesdays, 2.30 P.M.

*Medical*.—Prof. CLARK and Prof. DELAFIELD, Thursdays, 12 M.

*Genito-Urinary Diseases*.—Prof. OTIS, Thursdays, 3 P.M.

*Diseases of Women*.—Prof. THOMAS, Fridays, 3 P.M.

*Diseases of the Nervous System*.—Prof. SEGUIN, Saturdays, 3 P.M.

Attendance is optional, and admission free to matriculated students.

### Hospital and Dispensary Clinics.

Besides the College Clinics, the great Hospitals and Dispensaries of New York afford unequalled fields for clinical teaching. This College is strongly represented on the staffs of these institutions, and *regular clinical instruction at hospitals and dispensaries is made a prominent feature of the College curriculum*. Instruction is given during both the Winter and Spring Sessions, at hours that do not interfere

with the College Didactic Lectures. Attendance is optional, and admission is free to matriculated students. At all the following hospitals and dispensaries instruction is given by Officers of the College.

*BELLEVUE HOSPITAL*, 26th Street and East River. This is one of the largest general hospitals in the country, is within ten minutes' walk of the College, and is closely connected with it by a line of horse-cars. It has 800 beds, and received 5,586 medical, surgical, and uterine patients in 1877. The service thus covers a great range of practice, and presents an invaluable field for clinical instruction. Professors CLARK, JACOBI, and DELAFIELD are Physicians, Professors SABINE and J. G. CURTIS, Surgeons, to the Hospital, and give systematic clinical lectures there.

*CHARITY HOSPITAL*, Blackwell's Island, receives nearly 10,000 patients annually, of whom a large number are cases of chronic affections. This hospital offers a peculiarly rich field for the study of venereal diseases, over 2,000 such cases being received yearly. Prof. OTIS is on the Staff of the Venereal Department, and gives clinical instruction.

*ROOSEVELT HOSPITAL*, 59th Street and Tenth Avenue. This is a comparatively new general hospital, erected by private means. It is built according to the most approved modern plans, and is elaborately appointed. It accommodates 180 patients. Professors PARKER, CLARK, and METCALFE are on the Consulting Staff; Professors DELAFIELD and DRAPER are Attending Physicians, Professors MARKOE and SANDS and Dr. WEIR, Attending Surgeons. Regular clinics are held by the last-named four gentlemen.

*NEW YORK HOSPITAL*. This, the oldest of the general hospitals of the city, is now reopened on a new site in 15th Street, between Fifth and Sixth Avenues, in new buildings of the latest construction, and fitted to accommodate 150 beds, as well as the superb Museum and Library of the Hospital.

Profs. DRAPER and McLANE are Attending Physicians, Profs. MARKOE and SANDS, and Dr. WEIR, Attending Surgeons, to this institution, and clinical lectures are given in its excellent theatre.

*NEW YORK HOSPITAL, OUT-PATIENT DEPARTMENT*. Varied clinical instruction is given here as follows: *Medical*, by Dr. McBRIDE; in *Diseases of the Skin*, by Dr. ABBE; in *Diseases of Women*, by Dr. FOSTER; and in *Diseases of Children*, by Dr. KINNICUTT.

Here also the special courses in *Physical Diagnosis* are given by Dr. WHEELLOCK. (See page 17.)

*DEMILT DISPENSARY*, 23d Street and Second Avenue, three squares from the College. This is a general dispensary, where out-patients are prescribed for. During the past year 31,572 cases were registered. Service daily, the patients being divided into classes, according to the character or site of the disease. Prof. LEFFERTS is on the Staff in the *Throat* Department, Dr. SATTERTHWAITE in the *Surgical*, and Dr. N. B. EMERSON in that for Nervous Diseases.

Clinical instruction is given by the last-named two gentlemen. It is here also that the College Special Courses on *Laryngoscopy* are given by Prof. LEFFERTS. (See page 18.)

*NEW YORK EYE AND EAR INFIRMARY*, 13th Street and Second Avenue. This is the largest institution of its kind in the country. It has 60 beds for house-patients, and a dispensary service for out-patients is held daily. During

the past year 10,530 cases were registered. Dr. BUCK is on the Staff in the Aural Department, Dr. ST. JOHN, in the Ophthalmic, and Prof. LEFFERTS, in the Throat Department.

Clinical instruction is given by Drs. BUCK and ST. JOHN in their several departments. It is here also that the College Special Courses on *Otology* are given by Dr. BUCK. (See page 18.)

*MANHATTAN EYE AND EAR HOSPITAL*, 233 East 34th Street. This hospital has 16 beds, and a daily dispensary service is held for diseases of the eye, ear, and throat. During the past year 4,061 cases were registered. Prof. AGNEW and Drs. POMEROY and WEBSTER are on the Staff, and give clinical instruction. Prof. SEGUIN also gives instruction here in Electro-Therapeutics and Nervous Diseases.

*NEW YORK OPHTHALMIC AND AURAL INSTITUTE*, 46 East 12th Street. This hospital has 30 beds, and a daily dispensary service is held. During the past year 4,832 cases were registered. Dr. KNAPP is Surgeon-in-charge, and it is here that the College Special Courses on *Physical Examination of the Eye* are given by Dr. KNAPP. (See page 17.)

*NEW YORK FREE DISPENSARY FOR SICK CHILDREN*, 217 E. 47th Street. At this Dispensary, especially devoted to the treatment of children's diseases, and having over 2,500 patients registered in 1877, clinical instruction in this important branch of practice is given by Dr. MAGIE.

Besides the above-mentioned, there are numerous other hospitals and dispensaries, both general and special, to which the student can resort for observing disease.

### III.—RECITATIONS.

The great value of systematic examinations in accurately fixing the knowledge of the student is too obvious to need discussion. Provision is made in this College for examination on the subjects taught in the didactic lectures, by a system of recitations, held by a Corps of Examiners at the College during the Winter and Spring Sessions. Recitations are held daily during the Winter and Spring Sessions, at hours that do not interfere with either lectures or clinics.

#### Corps of Examiners.

JOHN G. CURTIS, M.D., Surgery.	SAMUEL B. ST. JOHN, M.D., Chemistry.
CHARLES MCBURNEY, M.D., Anatomy.	MATTHEW D. MANN, M.D., Materia Medica and Therapeutics.
GEORGE B. FOWLER, M.D., Physiology.	THOMAS A. McBRIDE, M.D., Practice of Medicine.
FRANK E. BECKWITH, M.D., Obstetrics and Diseases of Women and Children.	

*Fees.*—Full Course—Winter Session, \$40; Spring Session, \$30; Collegiate Year, \$60. Elementary Course, comprising Anatomy, Physiology, Chemistry, and Materia Medica—Winter Session, \$25; Spring Session, \$20; Collegiate Year, \$40. Any single branch—Winter Session, \$7; Spring Session, \$5; Collegiate Year, \$10.

Attendance optional, but if on a full course, counts as time spent in study under a preceptor.

#### IV.—PERSONAL INSTRUCTION IN MANIPULATIVE BRANCHES.

This kind of teaching is indispensable to train the hand, eye, and ear of the student for their work in diagnosis and treatment. The following are the advantages offered by the College in this direction, but it is optional with the student whether or no to avail himself of them, excepting in the case of Practical Anatomy.

**PRACTICAL ANATOMY.** A practical knowledge of human anatomy is obviously an indispensable prerequisite for the labors of both the physician and the surgeon, and can be gained only by dissection. Every student at this College is expected to dissect, and for this purpose a large, completely appointed Dissecting-Room, ample for all, is provided in the College building. It is open from October 1 to May 1, during which time the Demonstrator or Assistant Demonstrator are one or both present during the afternoons, and, throughout the Winter Session, in the evenings. Material is abundant and cheap. *Fee*, \$10, good for a Collegiate Year.

**PRACTICAL OBSTETRICS.** Each advanced student has one or more cases of midwifery allotted to his exclusive care, with the privilege of summoning the Adjunct Professor of Obstetrics, should difficulties arise. The Professor then takes charge, and demonstrates the proper treatment. In this way the student is personally familiarized with the management of both normal and abnormal labors. *Fee*, none.

In addition to the foregoing, the following courses of practical instruction on special subjects have been instituted by the College. The Classes are limited in the number of members, in order that each student may receive a thorough personal drilling in the technical details of the subject.

**OPERATIVE SURGERY**, by THOMAS T. SABINE, M.D., *Adjunct Prof. of Anatomy, Surgeon to St. Luke's Hospital, the Colored Hospital, and Bellevue Hospital.* Instruction in this branch is given at the College building throughout the Winter and Spring Sessions. Students are practised in operating upon the cadaver. *Class Members*, 6. *Lessons*, 12. *Fee*, \$12.

**MINOR SURGERY**, by JAMES L. LITTLE, M.D., *Lecturer on Operative Surgery and Surgical Dressings in the Spring Session; Surgeon to St. Luke's and St. Vincent's Hospitals.* Instruction in this branch embraces practice upon the manikin or cadaver, the application of bandages and the various dressings used in the treatment of wounds, fractures, dislocations, &c. *Class Members*, 10. *Lessons*, 10. *Fee*, \$10.

**PHYSICAL DIAGNOSIS**, by GEORGE G. WHEELLOCK, M.D., *Lecturer on Physical Diagnosis in the Spring Session; Clinical Assistant to the Medical Clinic; Physician to St. Luke's Hospital, to the New York Hospital, Out-Patient Department, and to the Nursery and Child's Hospital.* Instruction in this branch is given throughout the year upon the persons of patients. The material is ample, being supplied from the College Medical Clinic, and the Instructor's own clinic in the Chest Class of the Out-Patient Department of the New York Hospital. *Class Members*, 6. *Lessons*, 12. *Fee*, \$12.

**PHYSICAL EXAMINATION OF THE EYE**, by HERMAN KNAPP, M.D., *Late Prof. of Ophthalmology in the University of Heidelberg; Surgeon to the New York Ophthalmic and Aural Institute.* Instruction in this branch is given at the latter-named institution. Each course lasts two months, and consists of two lessons weekly; each lesson consists of one hour given to practical exercises, and half an

hour to theoretical instruction. Hours to suit the class. *Class Members, about 12. Fee, \$15.*

*OTOLOGY*, by ALBERT H. BUCK, M.D., *Clinical Assistant to the Eye and Ear Clinic; Aural Surgeon to the New York Eye and Ear Infirmary.* Instruction in this branch is given during the Winter and Spring Sessions, at the Eye and Ear Infirmary. *Class Members, limited. Lessons, 12. Fee, \$12.*

*LARYNGOSCOPY AND RHINOSCOPY*, by GEORGE M. LEFFERTS, M.D., *Clinical Professor of Laryngoscopy and Diseases of the Throat; Laryngoscopic Surgeon to St. Luke's Hospital; Surgeon to the New York Eye and Ear Infirmary, and Demilt Dispensary (Throat Departments).*

Courses of instruction in the practical use of the Laryngoscope and Rhinoscope, together with demonstrations of the pathology and treatment of diseases of the larynx, will be given at the College during the Spring Session, the class being divided into sections.

*Fee, none.*

In addition, throughout the year similar instruction will be given to graduates, at the institutions above mentioned. *Class Member, 1. Lessons, 12. Fee, \$12.*

## TEXT-BOOKS AND INSTRUMENTS.

Gray's Anatomy, \$5.40; Holden's Dissector, \$4.50; Dalton's Physiology, \$4.95; Fownes' Chemistry, \$2.48; Bartholow's Therapeutics and Materia Medica, \$4.50; Erichsen's Surgery, \$7.65; Leishman's Midwifery, \$4.50, *or*, Playfair's Midwifery, \$3.60; Thomas's Diseases of Women, \$4.50; Niemeyer's Practice, \$8.10, *or*, Bristowe's Practice, \$4.95.

*For reference*, Dunglison's Medical Dictionary, \$5.85; Ringer's Therapeutics, \$3.83; Pavy's Food and Dietetics, \$4.28.

*N.B.*—The above are the lowest prices at which the text-books, in cloth bindings, can be obtained in New York on January 1, 1878; these prices are liable to fluctuations. The latest editions only of text-books should be purchased by students.

A "Dissecting Case" containing all the necessary instruments can be bought for \$4.00.

## BOARD.

Good Board can be obtained at prices ranging from six to nine dollars a week.

SCHEME OF EXERCISES IN THE COLLEGE BUILDING. WINTER SESSION, 1877-78.

*The Exercise is a Didactic Lecture, unless otherwise specified.*

Demonstrator's Hours in Dissecting-Room, 2 to 4 P.M., 8 to 10 P.M.

During February, all the Lectures on *Anatomy* are given by Prof. SANDS. Prof. J. G. CURTIS lectures on *Physiology* from November 12 to December 20, inclusive.

\* For Thursdays, at 4 P.M., the Lectures are arranged as follows:—October 4 to December 6, *Practice*, Prof. CLARK. December 13 to January 31, *Localization in Cerebro-Spinal Diseases*, Prof. SEGUIN. February 1 to February 22, *Diabetes*, Prof. DRAPER.

*Scheme of HOSPITAL AND DISPENSARY Clinics, by Officers of the College: free to all Matriculated Students. Winter Session, 1877-78.*

**MEDICAL.**—*Bellevue Hospital*: Prof. CLARK or DELAFIELD, Tuesdays, 1.30 P.M. *Roosevelt Hospital*: Prof. DRAPER, during December and January; Wednesdays, 2.30 P.M. *New York Hospital, Out-Patient Department*: Dr. McBRIDE, Mondays, Wednesdays, and Fridays, 3 to 4 P.M., in January and February.

**SURGICAL.**—*Bellevue Hospital*: Profs. SABINE or J. G. CURTIS, Thursdays, 2.30 P.M. *Roosevelt Hospital*: Prof. MARKOE, Tuesdays, at 2.30 P.M., in October; Prof. SANDS, Tuesdays, at 2.30 P.M., in November, December, and January. *New York Hospital*: Wednesdays, at 2.30 P.M., Prof. SANDS in October and November; Prof. MARKOE in February and March. *Demilt Dispensary*: Dr. SATTERTHWAITE, Fridays, 2 P.M.

**VENEREAL.**—*Charity Hospital*: Prof. OTIS, Wednesdays, at 1.30 P.M., in October and November.

**SKIN.**—*New York Hospital, Out-Patient Department*: Dr. ABBE, Tuesdays, Thursdays, and Saturdays, 2 to 3 P.M.

**EYE AND EAR.**—*Manhattan Eye and Ear Hospital*: Prof. AGNEW, Drs. POMEROY and WEBSTER, Mondays, Wednesdays, and Fridays, 2 to 4 P.M. *New York Eye and Ear Infirmary*: (Eye Clinic) Dr. ST. JOHN, Wednesdays, at 2 P.M.; (Ear Clinic) Dr. BUCK, Wednesdays, from 3 to 4 P.M.

**DISEASES OF WOMEN.**—*N. Y. Hospital, Out-Patient Department*: Dr. FOSTER, Thursdays, 2 P.M.

**DISEASES OF CHILDREN.**—*Bellevue Hospital*: Prof. JACOBI, Mondays, at 2.30 P.M. *New York Hospital, Out-Patient Department*: Dr. KINNICUTT, Wednesdays and Fridays, 3 P.M. *Dispensary for Sick Children*: Dr. MAGIE, Fridays, 2 P.M.

**NERVOUS DISEASES.**—*Manhattan Eye and Ear Hospital*: Prof. SEGUIN, Mondays and Wednesdays, 4 P.M. *Demilt Dispensary*: Dr. EMERSON, Mondays and Fridays, 2 to 3 P.M.

## PRIZES.

ALL PRIZES ARE AWARDED PUBLICLY AT THE COLLEGE COMMENCEMENT.

*PRIZES FOR GENERAL PROFICIENCY IN EXAMINATION.*

There have been established three annual prizes for general proficiency in Examination, of which the first awards were made at Commencement, 1877, viz.: a First Prize of One Hundred Dollars, a Second Prize of Fifty Dollars, and a Third Prize of Twenty-five Dollars.

The method of awarding these prizes is as follows :

The ten members of each graduating class who, in their examinations before the Faculty for the Degree of Doctor in Medicine, and in their graduating theses, have shown the highest proficiency in all the branches combined, receive each a diploma of "Examination Honors," and are entitled to appear at a special public competitive examination in writing for the "Examination Prizes," which are awarded to the three successful competitors in the order of their merit.

This examination is conducted by Members of the Faculty, and the prizes are awarded by a committee of three judges, consisting of the President of the College, the President of the Association of Alumni, and a resident Alumnus selected by them.

The Committee of Award for 1877 consisted of the President of the College, Dr. ALONZO CLARK, the President of the Association of Alumni, Dr. WM. H. DRAPER, and Dr. GEORGE A. PETERS, of the Class of 1846.

Diplomas of "Examination Honors" were awarded in 1877 to the following gentlemen, who were the ten most proficient of the candidates who passed their examinations in September, 1876, and in February, 1877 :

RUDOLPH OTTO BORN, N. Y. City.	DANIEL M. MACMARTIN, N. Y.
HENRY L. ELSNER, N. Y.	CHARLES N. RAYMOND, Rhode Island.
WILLIAM B. GOLDSMITH, A.B., N. Y.	THOMAS L. STEDMAN, A.B., N. Y. City.
WILLIAM S. HALSTED, A.B., N. Y. City.	JOHN W. SUTTON, New Jersey.
FRANK A. LANGWORTHY, A.B., Mass.	LUTHER D. WOODBRIDGE, A.M., Mass.

Of these ten candidates, eight took part in the competitive examination for the three "Examination Prizes," which were awarded as follows :

*First Prize* to WILLIAM S. HALSTED, A.B., of New York City.

*Second Prize* to THOMAS L. STEDMAN, A.B., of New York City.

*Third Prize.* Two third prizes were awarded to two competitors of equal merit, viz., HENRY L. ELSNER, of New York, and JOHN W. SUTTON, of New Jersey.

The Committee of Award for 1878 will consist of the President of the College, Dr. ALONZO CLARK, the President of the Association of Alumni, Dr. WM. H. DRAPER, and Dr. GEO. A. PETERS, of the Class of 1846.

The competitive examination for 1878 will be held at the College, on Monday, Feb. 25, at 7 P.M.

*ALUMNI ASSOCIATION PRIZE.*

This is an annual prize of not less than Two Hundred Dollars, open for competition to all Alumni of the College. It is awarded for the best *Medical Essay* submitted, if deemed sufficiently meritorious, upon any subject the writer may select. The Prize Committee is appointed annually by the Association, at their meeting on

the evening before the College Commencement. Competing essays must each be marked with a device or motto, and accompanied by an envelope similarly marked, containing the name and address of the author. They must be submitted to the Prize Committee on or before the 15th day of February in each year.

Awarded March 1, 1877, to GEORGE B. FOWLER, M.D., of the Class of 1871, for an Essay on *A New and Simple Method for the Quantitative Estimate of Urea*.

### STEVENS TRIENNIAL PRIZE.

Established by the late ALEXANDER H. STEVENS, M.D., former President of the College, on the following plan:

Each prize, to be awarded triennially, is to consist of the interest yielded by the principal fund during the preceding three years, and will amount to Two Hundred Dollars.

The administration of the prize is entrusted to a commission, consisting of the President of the College of Physicians and Surgeons (ex-officio), the President of the Alumni Association (ex-officio), and the Professor of Physiology (ex-officio), in the same institution.

This prize was awarded in March, 1876, to E. ROSENBERG, M.D., for an essay on *The Use of the Spectroscope in its Application to Scientific and Practical Medicine*.

The following are the subjects for the Triennial Prize of 1879:

1st. Bacteria and kindred organisms in their relation to disease.

2d. Human excreta as a cause of disease; the diseases produced therefrom, and their prevention by hygienic means.

The competing essays on either of the above subjects must be sent in to the President of the College of Physicians and Surgeons, New York, on or before the 1st day of January, 1879. Each essay must be designated by a device or motto, and must be accompanied by a sealed envelope, bearing the same device or motto, and containing the name and address of the author. The envelope belonging to the successful essay will be opened and the name of the author announced, at the Annual Commencement of the College, in March, 1879; at which time also the subjects for the next triennial prize (1882) will be announced.

This prize is open for universal competition.

### JOSEPH MATHER SMITH PRIZE.

The fund for this prize is given by the relatives of the late Dr. Smith, as a memorial of his services as Professor in the College from 1826 to 1866. Under its provisions an Annual Prize of One Hundred Dollars will be awarded for the best essay on the subject for the year, presented by an alumnus of this College. The Prize Committee, consisting of the President of the College, the Professor of Pathology and Practical Medicine, and the President of the Alumni Association, will designate each year the subject for the following year. The competing Essays should be sent to the President of the College on or before the 1st of January in each year; each essay to be signed with a device or motto, and accompanied by a sealed envelope inscribed with the same device or motto, and containing the name of the author. The envelope of the successful essayist will be opened, and the prize awarded, at the Annual Commencement next following.

There was no award of this prize in 1877.

The subject to be treated of for the prize to be awarded in March, 1879, is *The Physiological and Therapeutical Effects of Salicylic Acid and its Compounds*.

# AMERICAN MEDICAL COLLEGE ASSOCIATION.

---

## ARTICLES OF CONFEDERATION.

*(To be subscribed, published, and conformed to by all the Colleges of the Association.)*

---

### ARTICLE I.—OF THE FACULTY.

The medical members of the Faculty must be *regular* graduates or licentiates and practitioners of medicine, in good standing, using the word “regular” in the sense commonly understood in the medical profession.

### ARTICLE II.—OF TUITION.

SECTION 1. The scheme of tuition shall provide for a yearly systematic course of instruction covering the general topics of Anatomy, including dissections, Physiology, Chemistry, Materia Medica and Therapeutics, Obstetrics, Surgery, Pathology and Practice of Medicine. The collegiate session wherein this course is given shall be understood as the “regular” session.

SECTION 2. Said Regular Session shall not be less than twenty weeks in duration. This section to go in force at and after the session of 1879-80.

SECTION 3. Not more than one regular session, counting the regular session as one of the two courses of instruction required for graduation, shall be held in the same year.

### ARTICLE III.—REQUIREMENTS FOR GRADUATION.

No person, whether a graduate in medicine or not, shall be given a diploma of “Doctor of Medicine,” who shall not have fulfilled the following requirements, *except* as hereinafter provided for in Article IV. :

1. He must produce satisfactory evidence of good moral character, and of having attained the age of twenty-one years.

2. He must file a satisfactory certificate of having studied medicine for at least three years under a *regular* graduate, or licentiate and practitioner of medicine, in good standing, using the word “regular” in the sense commonly understood in the medical profession. No candidate shall be eligible for final examination for graduation,

unless his term of three years' study shall have been completed or shall expire at a date not later than three months after the close of the final examinations; this clause to take effect at and after the session of 1879-80.

3. He must file the proper official evidence that during the above-mentioned three years he has matriculated at some affiliated college or colleges, for two regular sessions, and in the course of the same (except as provided in 4) has attended two full courses of instruction on the seven topics mentioned in Article II. But the *latter*, at least, of the two full courses must have been attended at the college issuing the diploma. No two consecutive courses of instruction shall be held as satisfying the above requirements unless the time between the beginning of the first course and the end of the second is greater than fifteen months.

4. In case a college shall adopt a systematic graduated scheme of tuition, attendance on the whole of the same shall be equivalent to the requirements mentioned in 3, *provided* such scheme includes instruction in the seven topics mentioned in Article II., and requires attendance at at least two yearly regular Collegiate Sessions of not less than twenty weeks' duration each.

5. The candidate must have passed a personal examination before the Faculty on all seven of the branches of medicine mentioned in Article II.

6. He must have paid in full all College dues, including the graduation fee.

#### ARTICLE IV.—OF HONORARY DEGREES.

An honorary degree of "Doctor in Medicine" may be granted in numbers not exceeding one yearly, to distinguished physicians or scientific men of over forty years of age. But in such case the diploma shall bear across its face the word "Honorary," in conspicuous characters, and the same word shall always be appended to the name of the recipient in all lists of graduates.

#### ARTICLE V.—OF FEES.

SECTION 1. All fees shall be paid in lawful money, and no promissory notes or promises to pay shall be accepted in lieu of cash for payment of fees.

SECTION 2. No ticket, or other certificate of attendance upon college exercises, shall be issued to any student until the dues for the same shall have been fully paid.

SECTION 3. The established fees for the exercises of the regular session, except the matriculation fee, graduation fee, fee for dissections, may be reduced not more than one-half to graduates of other affiliated colleges of less than three years' standing, and to undergraduates of the same who have already attended two full courses of the instruction of the regular session.

SECTION 4. The same fees may be remitted altogether to a college's own alumni, to graduates of other affiliated colleges of three years' standing—the three years dating from the time of graduation and ending at the close of the regular session for which the tickets are given—to undergraduates who have already attended two full

courses of the instruction of the regular session, the latter of which, at least, shall have been in the college making the remission, and to theological students, when not candidates for a diploma.

SECTION 5. The same fees may be reduced or remitted to deserving indigent students, to a number not exceeding five per cent. of the number of matriculants at the previous regular session of the College.

SECTION 6. Under no circumstances whatever, other than the above, shall the Faculties, or any members of the same, grant, *upon their own authority*, any remissions or reductions of established fees. And it is distinctly understood and agreed that the Faculties will discountenance and oppose the authorizing by governing Boards of the admission of individual students upon other than the regularly established charges for their grade.

SECTION 7. Remission or reduction of fees for other exercises than those of the regular session, return to a student of any moneys after payment of fees, or an appropriation of funds of the college for payment of any student's fees, or part thereof, shall be deemed violation of the provisions of this article in regard to remission or reduction of fees.

#### ARTICLE VI.—OF RECOGNITION OF OTHER COLLEGES.

No college shall admit to the privileges accorded in Articles III. and V. the students or graduates of any college which, during any period of the student's or graduate's pupilage shall have been excluded from the list of affiliated colleges recognized by the Association.

#### ARTICLE VII.—AMENDMENTS.

Amendments to these Articles shall be proposed and adopted in the manner prescribed for amendments to the Constitution.

TOTAL, 118.

Letters requiring information should be addressed to JOHN G. CURTIS, M.D., *Secretary of the Faculty, College of Physicians and Surgeons, corner of Twenty-third Street and Fourth Avenue, New York.*

Students are requested, on their arrival in the City, to call at the College and register their names with the Clerk of the College, MR. BOAG, who will give them all necessary information, and aid them in obtaining board.

Alumni of the College desiring to receive the Catalogue regularly are requested to send their names and addresses to the Secretary.
